**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I like my service and feel every American should have the option to have whatever they want for internet and phone provider. If my plan changes then I going to vote against whoever changed my plan in next election count on it.

As a customer of Socket I do not want to ever go back to using one of the bigger names like AT&T. I find socket has better customer relations they do not have a lot of hidden and unexpected fees like AT&T does. If it wasn't for Socket I would not have access to the internet and I would have no phone at all. Plus they straightforward they tell you your bill is \$70.00 a month and that is what your bill is every month. I love that. I have been with AT&T and they had me on a \$50.00 month plan that offered phone and internet and guess what I never received a bill for \$50.00 they were like \$400 or more they are nothing but crooks. Well I am off here and I hope you all do not let Socket be manipulated by the bigger companies. Stop bullying in all shape and sizes. Yours truly
Christopher D. Casto a proud Socket customer
